

Bench - Whitworth

As restored and reproduced by Lost Art for the restoration project at the Joseph Whitworth Institute in Darley Dale, Derbyshire.

An excellent Victorian bench in the rustic tradition. Originally from the famous Coalbrookdale Foundry. Both this design and style of bench were popular choices for installation in Victorian parks and Lost Art have supplied these to a number of restoration and regeneration projects where historical accuracy has been an important consideration. Available as a two-seat bench using 2 ends or as a longer bench using multiple ends.

Dimensions

Height: 850mm Floor to Armrest: 570mm
Width: 600mm Floor to Seating: 400mm
Base: 530mm
