

Fencing - **Gameproof Fencing Style H692 - Gothic**

Described by the Victorians and Edwardians as 'Ornamental Game Proof Fence', this style of paneled fencing is similar to the other styles offered by Lost Art Limited but differs in that it has a more arched, even ecclesiastical appearance to the tops of the railings, in comparison to the more usual rounded style seen elsewhere.

This style of fencing is available in two sizes, the length of the panels is the same but they vary in height.

Dimensions

Medium

Height 620mm

Length 1900mm

Large

Height 1800mm

Length 1900mm

Note: this refers to the visible height, there are legs that are inserted into the ground.

Produced to high specifications and electroplated prior to painting in order to offer significant corrosion protection, properly maintained this will be a long-lasting product enhancing private or public spaces.

According to the Bayliss Catalogue:

"For pleasure grounds, enclosing flower beds, shrubberies, ornamental waters etc. These fences make a neat guard against rabbits for enclosing shrubberies, also for boarders in private gardens, recreation grounds and public parks"

It is electroplated for protection against corrosion prior to powder coating. This provides for a long life with minimal requirement for maintenance.

All items are finished in black.
